

Capabilities Statement

Every year in California, more than one in ten registrations becomes delinquent worth an estimated **\$425 million**.

Let's recoup \$50 million in the first year.

Company Summary

- ◆ Silicon Valley technology startup
- ◆ Custom built solution to help weed out violators of veh 5204(a) (law requires valid tabs on rear licence plate)
- ◆ Fully operational and scalable

Core Capabilities

- ◆ Produce and deliver daily tabulated report of expired licence plates that have been
 - ◆ photographed (with our app) the previous day
 - ◆ screened for accuracy and clarity
 - ◆ deduped, so only first time reports are included
- ◆ Data gathered from around California

Differentiators

- ◆ Each image is stamped with location, date and time
- ◆ Each record in the daily tabulated data report includes
 - ◆ licence plate number
 - ◆ date and time
 - ◆ make, model and color of vehicle
 - ◆ month and year of stale tag
 - ◆ minimum number of days delinquent
 - ◆ URL to verified photographic evidence
- ◆ Format tailored to suit agency requirements to enable violation notice similar to a toll bridge crossing statement/invoice to be mailed to vehicle owner
- ◆ Capability to report out-of-state vehicles to help the CHP REG program (previously known as CHEATERS)
